General Prerequisite Coursework for Texas Dental Schools

*Program requirements may change without notice and vary with each school; you are still responsible for checking schools’ websites for admissions information. Please see your academic advisor to further explore the requirements of the school in which you are interested.*

**Dental Schools require Physics Courses for science majors. Please see your major advisor for information on which physics are required for your degree.**

**Anatomy & Physiology I & II is recommended to prepare for dental school curriculum (required by Texas A&M)**

**NOTE: Courses for non-science majors or for health career majors, such as nursing, pharmacy, allied health sciences, will NOT satisfy the required coursework. All required coursework must be applicable toward a traditional science degree.**

**A ‘C’ or better is required in all coursework**

**Completion of a degree is STRONGLY recommended**

Scan the QR code for more information on the Pre-Dental Pathway and how to be a competitive applicant for admission.
Mapping the Pre-Dental Journey

With the help of your pre-health advisor, use the prerequisite courses listed on the previous page to create an individual plan for your pre-dental ambitions. NOTE: This is not an official plan, advising record, or degree audit. Please review the proposed course timeline with your degree plan advisor to ensure you have the correct courses to graduate.

<table>
<thead>
